Bill,

After 2.5 years of scrutiny, EASA STC EASA.IM.R.S.01180 has just been issued for the 204/205/212/214/412 Fuel Purge Canister.

Hmmm ... I think this approval took longer than the Eagle Single. Suspect it got lost on someone's desk.

Kim J.

I reviewed the certificate and I am satisfied with it ... despite the fact that there is no revision called out on the ICA. Because there is a date there, I think we're covered. I am concerned that if I tried to get this fixed, we might be waiting another 2.5 years. **So release as is and update the PDS.**

David
